RE: Mid-Term Permit Review, Savage Services Corp., Savage Coal Terminal C/007/0022, Task ID #2759, Ownership and Control Review

SUMMARY:

The Division initiated a midterm review of the Savage Coal Terminal on March 5, 2007. The ownership and control information in the permit is accurate and needs no further updating.

The Division should perform an AVS check to insure that ownership is current and correct.

TECHNICAL ANALYSIS:

GENERAL CONTENTS

IDENTIFICATION OF INTERESTS

Regulatory Reference: 30 CFR 773.22; 30 CFR 778.13; R645-301-112

Analysis:

Section 2.2.1 and 2.2.5 of the MRP indicates that the applicant and operator is Savage Services Corp. The current Mining and Reclamation permit, dated August 7, 2004, is assigned to Savage Services Corp. All Division correspondence to Savage Coal Terminal is through James T. Jensen, Executive Vice President, General Counsel and Corporate Secretary of Savage Services Corp.

TECHNICAL MEMO

Section 2.2.7.2 states that Savage Services Corporation is an independent corporation. The Savage Services Corporation ownership and control information in Sections 2.2.7.1 is dated April 2005.

The Division should perform an AVS check to insure that the ownership and control information is current. Appendix 2-1 lists a reclaimed Savage Industries Inc. site: the Catale Oklahoma Loadout. The AVS check should ascertain whether this site is still owned by Savage Services Corp. and whether the site has received bond release.

Findings:

The information provided meets the requirements of the Regulations.

RECOMMENDATIONS:

The Mining and Reclamation Plan contains accurate ownership and control information.
